

## EYFS Pupil Homepage Example

The screenshot shows a user interface for an EYFS Pupil Homepage. On the left, there is a vertical sidebar with a red-to-yellow gradient background. It contains a 'My class' button at the top, followed by four menu items: 'Projects' (orange icon), 'Homework' (blue icon), 'Class members' (red icon), and 'Chat' (green icon). The main content area is titled 'Wednesday 27th January' and has a 'Back' button in the top right corner. Below the title is a list of ten downloadable resources, each with a download icon, the filename, and a 'Download' button.

## KS1 Pupil Homepage Example

The screenshot shows a user interface for a KS1 Pupil Homepage. On the left, there is a vertical sidebar with a blue-to-red gradient background. It contains a 'My class' button at the top, followed by four menu items: 'Projects' (orange icon), 'Homework' (blue icon), 'Class members' (red icon), and 'Chat' (green icon). The main content area is titled 'Wednesday 27th January 2021' and has a 'Back' button in the top right corner. Below the title is a chat message from 'Mrs L Withers' (profile picture of a horse) with a green speech bubble containing text about the day's schedule and activities. Below the chat message is a list of seven downloadable resources, each with a download icon and a 'Download' button. The background of the main content area features a dark blue space theme with a large yellow moon, a striped planet, and a white rocket ship.

Good morning! How are you all today?

This morning, you have a handwriting session, followed by an English lesson, which Miss O has recorded.

After that, you have a maths lesson, which is partly recorded by myself and the White Rose - it is an investigation today.

This afternoon, we are going to split the afternoon into a PE session and an Outdoor Learning session. We have linked with 'Chance to Shine' PE company and will be taking part in an online challenge: [chancetoshine.org/live](http://chancetoshine.org/live) See the competition poster below! You need to be online at 2:00pm so you might have to do your Outdoor Learning first!

For your Outdoor Learning task, I have linked it again to the RSPB Big Bird Watch - we need to submit our results soon so get bird spotting.

Have a great day y'all!

For Geography this afternoon, you are going to be finding out all about the Arctic and Antarctic.

Watch the teaching video, pausing to complete any tasks or activities as you go.  
The independent task can be produced on the computer or, if you want a break from the screen, you can produce this by hand - in your book/on a piece of paper.

I mention the possible use of websites during the video - here are a couple of useful ones ...

<https://www.coolantarctica.com/>  
<https://www.sciencekids.co.nz/sciencefacts/earth/arctic.html>  
<https://www.sciencekids.co.nz/sciencefacts/earth/antarctica.html>

However, you do not need to use any websites - all the information you require is in the pdf attachments.

I look forward to reading all the interesting information you discover : )  
Off you go Geographical Globetrotters ...
